

Effective Representation. Real Reform.

CARL DUGGER will provide the **effective representation** necessary to solve the real problems facing Southwest Washington.

CARL DUGGER will fight for **quality schools, efficient transportation systems and safe neighborhoods**. That requires bringing communities together, not breaking them apart. Carl will not waste the taxpayers' time and money on mean-spirited extremist agendas.

With a background as a professional wildlife biologist and a port commissioner, Carl knows that a clean, healthy environment and a strong economy go hand-in-hand. Carl will **fight to protect our jobs AND our quality of life**.

Governmental efficiency is one of CARL DUGGER's highest priorities. Carl helped to take a port district that was losing money and turn it around to an operational profit for the first time in years. Carl knows how to **streamline governmental services and cut the fat**. Carl helped guide the port through ten years of balanced budgets and squeaky clean state audits.

CARL DUGGER will fight vigorously for **campaign finance reform**. We must take our government out of the hands of big money, we must make it more user-friendly, more responsive to the little guy.

CARL DUGGER will make sure that **tax cuts** go to ordinary working people, not just to the wealthy.

Carl
DUGGER
