

W O R D S

nurmi husa 's been a **writer** and **graphic designer** for nearly twenty years, shuffling through an interesting variety of clients: political candidates and advocacy groups, theatres, and a number of businesses focusing on training, consultancy and in-the-trenches retail. he's handled everything from logo/letterhead/brochure and web design to ads, book covers, press releases, speeches and helping people stand in front of a group and present favorably. (*being also one of the northwest's most successful professional actor's for the last fifteen years.*)

he was most recently **associate editor, special projects/design**, responsible for the full spectrum of design needs of *quilting arts magazine*, a glossy national quarterly dedicated to the art of embellished quilting.

design, scheduling, people moving, budgetary matters, pr, copy-writing, editing, problem-solving on short notice and creative thinking on a shoestring – this **broad grouping of skills** is what nurmi brings to your table.

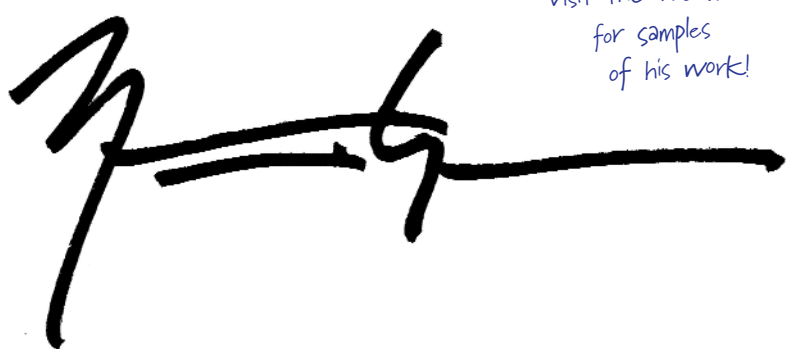

d e s i g n
